

MIHIR DARJI

Vadodara, India | mihirtailornil22@gmail.com | +91 63557 84975 | linkedin.com/in/mihir-tailor-10b288203

Software Developer with 1.5 years of total work experience specializing in designing and developing scalable web applications using Python, FastAPI, and Django ecosystems. Strong understanding of system design, backend API architecture, asynchronous programming, and database optimization using SQL Server and MySQL. Experienced in collaborating across cross-functional teams to deliver performance-driven features and clean system integrations.

WORK EXPERIENCE

Python Developer

Datanova Software Solutions Pvt Ltd.

March 2026 - Present

- Designing, developing, and maintaining scalable backend RESTful APIs and high-performance asynchronous endpoints using Python, Django, and FastAPI frameworks.
- Developing robust data architecture models and structured API views to ensure secure, clean, and reliable system data flows.
- Optimizing database scripts, stored procedures, complex query configurations, and schema designs across SQL Server and MySQL platforms.

Full Stack Developer Intern

Weltec Institute

May 2024 - May 2025

- Gained hands-on architecture experience in software development utilizing Python, Django, HTML5, CSS3, Bootstrap, and relational MySQL instances.
- Designed and integrated user authentication protocols, custom role-based access control measures, and precise data security validations.
- Developed fully functional responsive web applications supporting dynamic product inventories and secure transactional workflows.

WordPress Developer Intern

Infonaya Software

Jan 2024 - May 2024

- Contributed to functional feature developments and module structures for an enterprise University Management Portal platform.
- Built clean web interfaces mapping key application workflows for performance reports, schedule managers, and tracking systems.
- Authored precise manual test cases and validated functional paths to ensure application reliability and cross-module consistency.

EDUCATION AND CERTIFICATIONS

Bachelor of Engineering

Dr. Jivraj Mehta Institute Of Technology

2020 - 2024

Computer Science | Anand, Gujarat

HSC (Arpi Science School)

Vadodara, Gujarat

2018 - 2020

GHSEB Board

TECHNOLOGIES AND LANGUAGES

Languages &
Technologies:

Python, HTML5, CSS3, JavaScript, SQL

Frameworks & Libraries:	FastAPI, Django Framework, Bootstrap, WordPress
Databases:	SQL Server, MySQL
Tools:	Visual Studio Code, Postman, Manual Testing, Git, Version Control
Research & Development:	Exposure to REST APIs, Asynchronous Programming, High-Performance API Gateways, Secure Authentication Architecture, and Cloud Deployment models.

PROJECTS

- **Asynchronous REST API Gateway:** High-performance backend routing infrastructure built supporting custom validation, data schemas, and high-concurrency transactional processing. (FastAPI, SQL Server)
- **University Performance Portal:** Centralized system for tracking admissions, schedules, homework, and billing reports. (WordPress, HTML5, CSS, MySQL)
- **E-Commerce Clothing Platform:** Full-featured web store with product displays, secure cart systems, and custom authentication logic. (Python, Django, MySQL, Bootstrap)

CERTIFICATIONS & ACTIVITIES

- Corporate Technical Certification in Full-Stack Web Development Frameworks (Python & Django)
- Active attendee in local developer circles and regional technical workshops to review emerging frameworks.
- Certified Quality Assurance Track in Manual Software Testing Frameworks & Bug Lifecycle Logging.
